My carpets had loosened quite a bit. I was told that the humidity is the main culprit. They were able to stretch all of my carpets and remove all of the bumps. The carpets look great! - Jeff MacDonald

Heating and Cooling - Propane, Wood, Other

Gravenhurst Plumbing, Heating and Electrical

705-687-3402

www.gravenhurstplumbing.com

“2013/2014 was the winter that you did NOT want to have furnace issues. It was blind luck that I had gone up to the cottage in January to shovel the roof and discovered that the furnace was not working. I contacted Gravenhurst Plumbing, Heating and Electrical and they arrived within a couple of hours. We discovered that our heat exchanger had cracked and they needed to order parts. They quickly fixed the furnace in a timely and efficient manner.” Jeff MacDonald

Kitchens and Bathrooms

1st Choice Kitchens

Parry Sound

(705) 746-7305

<https://www.1stchoicekitchens.ca>

"I cannot say enough about Tom. We've previously done two major renovations, and three kitchens. Without doubt this was the best experience we've had, from start to finish. A true family business, Tom and his team were timely, professional and reliable... Chosen because it was a compromise between stock (flat pack type) cabinets and a fully custom kitchen, the cabinets are very well constructed and beautifully finished... And, their counter fabricator works off the plans, so our counter arrived the day after the kitchen install, meaning we were only without water to the kitchen for 5 days. Please feel free to stop by and take a look."

Bev put in our new septic for us 10 years ago. Access to the site was tricky but when he was done, you’d never have known he’d been here. Dave, Bev’s son, continues to be our go to person for goods by the yard including the mix we installed on our driveway last summer (2019). We wanted to soften the slope and fix where our connection to the road was slowly crumbling away and becoming problematic for the underside of our car. I’ve never had an issue getting hold of Dave, or had to wait for him to show up to do the job. - David Rushby

Veterinary

Georgian Animal Hospital

<http://www.muskokasepticservices.com>

Parry Sound

705-746-8178

"We had not had our cats to the vet since we moved to the lake full-time, and then one of our cats needed medical attention shortly after the world shut down on account of COVID-19. We contacted the vet, explained the situation, and they invited us to bring our cat up. They were lovely, made sure everything was OK with our cat before sending him home, and their fees were very reasonable." Enid Wray
